PRESSURE REGULATOR

APERVAL 101

STARTING UP INSTRUCTION

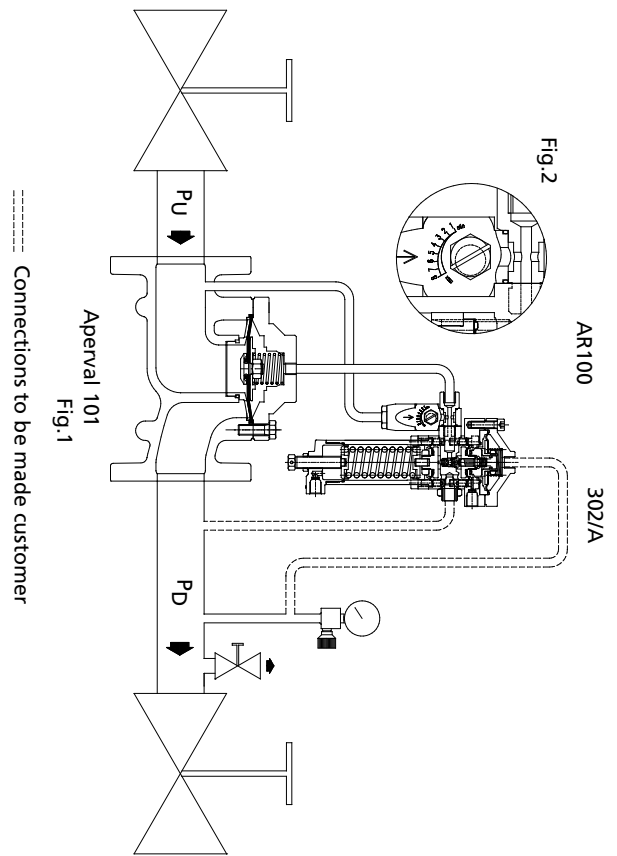

PRESSURE REGULATOR

APERVAL 101

STARTING UP INSTRUCTION

STARING UP REGULATOR (FIG.1)

1. Open the downstream vent valve
2. Turn AR100 valve at position 8 (fig.2)
3. Slowly open the ingoing block valve
4. Wait for the downstream pressure to reach about the setting value
5. Adjust the setting, alternatively acting on AR100 valve and pilot, so that it is reached at the lowest possible opening of AR100 valve
6. Close the downstream vent valve
7. Open very slowly the outgoing block valve
